

Application for Optional Specialisation

Master students can select their courses in order to obtain a certain specialization. Obtaining a specialization is optional and not required.

Name: _____ First Name: _____

Matriculation No: _____

Degree: M.Sc. Physics M.Sc. Applied Physics

I apply for recognition of the following optional specialization:

- Atomic, Molecular and Optical Physics
- Condensed Matter Physics
- Particle Physics
- Quantum Science and Technology
- Applied Condensed Matter Physics

I have chosen the courses in my modules accordingly and completed the research phase (Research Traineeship and Master Thesis) in the respective field of research. (For requirements, see handbook of modules.)
